

Accommodation conditions

Date of arrival and date of departure.

On arrival day, the check-in time is from 4 p.m. till 8 p.m. and on departure day, the check-out time is from 8 a.m. till 10 a.m. However, if possible, upon request, the client may check-in and check-out at the most convenient time for him/her. In this case, please contact us via e-mail info@bike-ski.cz or by telephone 603 228 367.

Arrival

The only access road to the apartment is in the direction of the cable car with a central parking from the road 297. After 200 metres, there is a gate on the left side of the road. Use one of the remote controllers to open the gate and continue via the road down the hill, ending in front of the garage gate.

Keys

After Your arrival, You will be given two sets of keys, containing a key of the building 317, of the apartment, of the garage and of the cellar. At the same time, you will be given one remote controller of the garage gate and one remote controller of the main gate.

Parking

One parking place with number 02 in front of the building is available to You as well as a parking place in the garage. If necessary, You can choose either the central parking or other parking in the town for Your second car.

Considering the sloping road leading to the garage, we recommend You tyre chains during the winter.

Storing bicycles, snowboards, sledges, etc.

Next to the parking place in the garage is a cellar, where You can leave Your bicycles, skis, snowboards or sledges. Storage of these things in the apartment or on the balcony is forbidden. We recommend You to leave there also Your ski shoes, which will certainly become dry thanks to a heat line.

Smoking and pets

Smoking and pets are forbidden in the whole apartment. Breach of this ban (as well as of the ban of the storage of skis and snowboards and bicycles) means an immediate end of the accommodation without any compensation.

The whirlpool system in the bath

When using the whirlpool system of the bath, make sure that the surface of the water is above the jets. The surface of water below this level can lead to damage of pump, which You would have to pay.
